| 2. Hazard(s) identification      |  |                |

| Physical hazards      | Flammable aerosols                                     | Category 1                  |
|-----------------------|--|-----------------------------|
|                       | Gases under pressure                                   | Liquefied gas               |
| Health hazards        | Skin corrosion/irritation                              | Category 2                  |
|                       | Serious eye damage/eye irritation                      | Category 2A                 |
|                       | Carcinogenicity  | Category 2                  |
|                       | Reproductive toxicity (the unborn child)               | Category 2                  |
|                       | Specific target organ toxicity, single exposure        | Category 3 narcotic effects |
|                       | Specific target organ toxicity, repeated exposure      | Category 1                  |
| Environmental hazards | Hazardous to the aquatic environment, acute hazard     | Category 3                  |
|                       | Hazardous to the aquatic environment, long-term hazard | Category 3                  |
| OSHA defined hazards  | Not classified.  |                             |

Label elements

Signal word Hazard statement

Danger

Extremely flammable aerosol. Contains gas under pressure; may explode if heated. Causes skin irritation. Causes serious eye irritation. May cause drowsiness or dizziness. Suspected of causing cancer. Suspected of damaging the unborn child. Causes damage to organs through prolonged or repeated exposure. Harmful to aquatic life. Harmful to aquatic life with long lasting effects.

Precautionary statement Prevention

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Do not spray on an open flame or other ignition source. Pressurized container: Do not pierce or burn, even after use. Do not breathe mist or vapor. Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Use only outdoors or in a well-ventilated area. Avoid release to the environment. Wear protective gloves/protective clothing/eye protection/face protection.

| Response                                     | If on skin: Wash with plenty of water. If inhaled: Remove person to fresh air and keep comfortable for breathing. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If exposed or concerned: Get medical advice/attention. Call a poison center/doctor if you feel unwell. If skin irritation occurs: Get medical advice/attention. If eye irritation persists: Get medical advice/attention. Take off contaminated clothing and wash before reuse. |
|--|--|
| Storage                                      | Store in a well-ventilated place. Keep container tightly closed. Store locked up. Protect from<br>sunlight. Store in a well-ventilated place. Protect from sunlight. Do not expose to temperatures<br>exceeding 50°C/122°F.  |
| Disposal                                     | Dispose of contents/container in accordance with local/regional/national/international regulations.  |
| Hazard(s) not otherwise<br>classified (HNOC) | None known.  |
| Supplemental information                     | 49.17% of the mixture consists of component(s) of unknown acute hazards to the aquatic environment. 49.17% of the mixture consists of component(s) of unknown long-term hazards to the aquatic environment.  |

# 3. Composition/information on ingredients

Mixtures

| Chemical name                            | Common name and synonyms | CAS number | %         |
|--|--------------------------|------------|-----------|
| ACETONE                                  |                          | 67-64-1    | 30 to <40 |
| PROPANE                                  |                          | 74-98-6    | 10 to <20 |
| TOLUENE                                  |                          | 108-88-3   | 10 to <20 |
| METHYL ETHYL KETONE                      |                          | 78-93-3    | 5 to <10  |
| N-BUTANE                                 |                          | 106-97-8   | 5 to <10  |
| PROPYLENE GLYCOL METHYL<br>ETHER ACETATE |                          | 108-65-6   | 5 to <10  |
| XYLENE                                   |                          | 1330-20-7  | 1 to <5   |
| CARBON BLACK                             |                          | 1333-86-4  | 0.1 to <1 |
| ETHYLBENZENE                             |                          | 100-41-4   | 0.1 to <1 |
| TITANIUM DIOXIDE                         |                          | 13463-67-7 | 0.1 to <1 |
| Other components below reportable lev    | vels                     |            | 10 to <20 |

\*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

## 4. First-aid measures

| Inhalation   | Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or doctor/physician if you feel unwell.   |
|--|---|
| Skin contact   | No adverse effects due to skin contact are expected. Remove contaminated clothing. Wash with<br>plenty of soap and water. If skin irritation occurs: Get medical advice/attention. Wash<br>contaminated clothing before reuse.  |
| Eye contact  | Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists. No specific first aid measures noted.   |
| Ingestion  | Not likely, due to the form of the product. In the unlikely event of swallowing contact a physician or poison control center. Rinse mouth.  |
| Most important<br>symptoms/effects, acute and<br>delayed                     | May cause drowsiness and dizziness. Headache. Nausea, vomiting. Severe eye irritation.<br>Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Skin irritation. May cause redness and pain. Prolonged exposure may cause chronic effects.                                       |
| Indication of immediate<br>medical attention and special<br>treatment needed | Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.  |
| General information  | IF exposed or concerned: Get medical advice/attention. If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance. |

# 5. Fire-fighting measures

| Suitable extinguishing media | Alcohol resistant foam. Water fog. Dry chemical powder. Carbon dioxide (CO2). |
|------------------------------|---|
|------------------------------|---|

| Unsuitable extinguishing media                                   | Do not use water jet as an extinguisher, as this will spread the fire.  |
|--|---|
| Specific hazards arising from the chemical                       | Contents under pressure. Pressurized container may explode when exposed to heat or flame. During fire, gases hazardous to health may be formed.   |
| Special protective equipment<br>and precautions for firefighters | Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.  |
| Fire fighting<br>equipment/instructions                          | In case of fire: Stop leak if safe to do so. Do not move cargo or vehicle if cargo has been exposed to heat. Move containers from fire area if you can do so without risk. Containers should be cooled with water to prevent vapor pressure build up. For massive fire in cargo area, use unmanned hose holder or monitor nozzles, if possible. If not, withdraw and let fire burn out. |
| Specific methods   | Use standard firefighting procedures and consider the hazards of other involved materials. Move containers from fire area if you can do so without risk. In the event of fire and/or explosion do not breathe fumes.  |
| General fire hazards   | Extremely flammable aerosol. Contents under pressure. Pressurized container may explode when exposed to heat or flame.  |

## 6. Accidental release measures

| Personal precautions,<br>protective equipment and<br>emergency procedures | Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Many gases are heavier than air and will spread along ground and collect in low or confined areas (sewers, basements, tanks). Wear appropriate protective equipment and clothing during clean-up. Do not breathe mist or vapor. Emergency personnel need self-contained breathing equipment. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.   |
|---|---|
| Methods and materials for containment and cleaning up                     | Refer to attached safety data sheets and/or instructions for use. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil, etc.) away from spilled material. Stop leak if you can do so without risk. Move the cylinder to a safe and open area if the leak is irreparable. Isolate area until gas has dispersed. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Prevent product from entering drains. Following product recovery, flush area with water.   |
|   | Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. For waste disposal, see section 13 of the SDS.   |
| Environmental precautions   | Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground. Inform appropriate managerial or supervisory personnel of all environmental releases.  |
| 7. Handling and storage   |   |
| Precautions for safe handling   | Obtain special instructions before use. Do not handle until all safety precautions have been read<br>and understood. Pressurized container: Do not pierce or burn, even after use. Do not use if spray<br>button is missing or defective. Do not spray on a naked flame or any other incandescent material.<br>Do not smoke while using or until sprayed surface is thoroughly dry. Do not cut, weld, solder, drill,<br>grind, or expose containers to heat, flame, sparks, or other sources of ignition. All equipment used<br>when handling the product must be grounded. Do not re-use empty containers. Do not breathe<br>mist or vapor. Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. When using,<br>do not eat, drink or smoke. Pregnant or breastfeeding women must not handle this product. Should<br>be handled in closed systems, if possible. Use only in well-ventilated areas. Wear appropriate<br>personal protective equipment. Wash hands thoroughly after handling. Avoid release to the<br>environment. Observe good industrial hygiene practices. |
| Conditions for safe storage,  | Level 2 Aerosol.  |
| including any incompatibilities   | Store locked up. Pressurized container. Protect from sunlight and do not expose to temperatures exceeding 50°C/122 °F. Do not puncture, incinerate or crush. Do not handle or store near an open flame, heat or other sources of ignition. This material can accumulate static charge which may cause spark and become an ignition source. Secure cylinders in an upright position at all times, close all valves when not in use. Store in a well-ventilated place. Store away from incompatible materials (see Section 10 of the SDS).  |

# 8. Exposure controls/personal protection

| tional exposure limits            |             |            |      |  |

# 10. Stability and reactivity

| Reactivity                          | The product is stable and non-reactive under normal conditions of use, storage and transport.                                |
|-------------------------------------|--|
| Chemical stability                  | Material is stable under normal conditions.  |
| Possibility of hazardous reactions  | Hazardous polymerization does not occur.   |
| Conditions to avoid                 | Heat. Avoid temperatures exceeding the flash point. Contact with incompatible materials.                                     |
| Incompatible materials              | Strong acids. Acids. Strong oxidizing agents. Nitrates. Halogens. Ammonia. Amines. Isocyanates Fluorine. Caustics. Chlorine. |
| Hazardous decomposition<br>products | No hazardous decomposition products are known.   |

# 11. Toxicological information

#### Information on likely routes of exposure

| Inhalation   | May cause damage to organs through prolonged or repeated exposure by inhalation. May cause drowsiness and dizziness. Headache. Nausea, vomiting. Prolonged inhalation may be harmful.                                 |  |
|--|---|--|
| Skin contact   | Causes skin irritation.   |  |
| Eye contact  | Causes serious eye irritation.  |  |
| Ingestion  | Expected to be a low ingestion hazard.  |  |
| Symptoms related to the<br>physical, chemical and<br>toxicological characteristics | Headache. May cause drowsiness and dizziness. Nausea, vomiting. Severe eye irritation.<br>Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Skin irritation. May cause redness and pain. |  |

\* Estimates for product may be based on additional component data not shown.

Persistence and degradability No data is available on the degradability of this product.

#### **Bioaccumulative potential**

| Partition coefficient n-octa | nol / water (log Kow)   |
|------------------------------|---|
| ACETONE                      | -0.24   |
| ETHYLBENZENE                 | 3.15  |
| METHYL ETHYL KETONE          | 0.29  |
| N-BUTANE                     | 2.89  |
| PROPANE                      | 2.36  |
| TOLUENE                      | 2.73  |
| XYLENE                       | 3.12 - 3.2  |
| Mobility in soil             | No data available.  |
| Other adverse effects        | No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component. |

#### 13. Disposal considerations

Disposal instructions

Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Contents under pressure. Do not puncture, incinerate or crush. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations.

| Local disposal regulations               | Dispose in accordance with all applicable regulations.   |  |  |
|--|--|--|--|
| Hazardous waste code                     | The waste code should be assigned in discussion between the user, the producer and the waste disposal company.   |  |  |
| Waste from residues / unused<br>products | Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).                           |  |  |
| Contaminated packaging                   | Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal. Do not re-use empty containers. |  |  |

## 15. Regulatory information

This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication **US** federal regulations Standard, 29 CFR 1910.1200. All components are on the U.S. EPA TSCA Inventory List.

## TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

Not regulated.

## CERCLA Hazardous Substance List (40 CFR 302.4)
